(a) Error of every case, per method
relative L2 error, against dense LU
error = signal
GMRES tol 1e-2
GMRES tol 1e-3
GMRES tol 1e-6
Series order 1
Series order 2
Series order 3
(b) Error against rho
relative L2 error against dense LU
rho (spectral radius of G0 T); dotted line: rho = 1
(c) Pearson correlation
1 - r (Pearson), against dense LU
